

Town of Bolton Recreation Commission  
Director's Report  
Thursday August 26, 2010

1. Budget (remaining) CE- \$4,200 PS-24,374 EQ- 2,900
2. Recreation Center- Will be re-opening approximately one week after school begins.
3. Winter Programs- NA
4. Summer Programs-
  - A. All free programs and events have ended, and beaches will be closing on Labor Day. Both Parks have passed inspection, however, to my knowledge the following still requires repair/attention
    - "no swimming signs" at the pier and on the finger docks.
    - the ventilation system for the Recreation Center bathroom
    - the hot water at Roger's park was required to be repaired, and improving the flow of water in the Ladies room was suggested as well.
  - B. I am recommending that Brian Mersereau return next season to continue as the Aquatics Director. I also recommend he be sent to a Lifeguard Instructor course sometime in January 2011 for the cost of \$325. This will enable him to train or retrain any staff in the future for Day Camp Beaches etc.
  - C. Parents suggested offering a swim club and the return of the Guard Start Program for Summer 2011. I have not arranged all of the details or been able to find staff to commit to the project, but am hoping to have it worked out and be submitted with the 2011 Budget Proposal.
5. Other-
  - A. The Conservation Club- I have been organizing a list of potential events/activities which could be held at the new Conservation club. One possibility would include offering six weeks of winter programs mirroring what occurs in the summer. The other possibility would include 1-3 events per week to make available for the public in 2 week sessions in December, January, and February. I have an extensive list of activities including seminars/workshops on meditation, Reiki, weightless, yoga, hula class, as well as various workshops involving presentations of exotic wildlife, rescued wildlife, and an adult arts and crafts program with a "Hawaii visits Bolton" theme. Offering a monthly concert and movie may also be an excellent way to incorporate more activities in the winter as well.

Next Recreation Commission Meeting-

Budget Meeting-

Budget Due- September 17, 2010

Respectfully,

Michelle Huck
