

Restaurant Operation During a Boil Water Notice Glens Falls District Office

- Post “NO DRINKING” at sinks
- Provide bottled water for hand washing in restrooms and at kitchen hand wash sinks
- Shut down water fountains
- Do not use POST-MIX soda - use canned soda – soda machines must be properly disinfected prior to placing back into operation
- Dump ice from ice machine - use bagged ice - ice machines must be properly disinfected prior to placing back into operation
- Use bottled water for drinking
- Use paper or plastic dishware and utensils whenever possible
- Use bottled water for coffee making
- Boiled water may be used for cooking

Two consecutive days of satisfactory Total Coliform Bacteria sample results must be submitted to and acknowledged by this office before the boil water order can be lifted. Only Health Department personnel can lift a boil water order.

If a restaurant is out of water and cannot provide sanitary facilities they must close!
