5. Other
 - a. I am considering taking Health and Safety courses through The American Red Cross, including CPR, an online anaphylaxis class, Lifeguard Management, and a first aid class. I am researching the courses, and feel that it may be beneficial to hold these certifications in the event of an emergency or absence of a required summer staff person. I would like to verify that I would be reimbursed for courses before taking them.

Respectfully Submitted,

Michelle R. Huck
