

Town of Bolton Recreation Department
Director's Report
July 29, 2010

No Meeting held in July

1. Thank You to Disc Jockey Andy Pratt for providing the sound equipment for the annual Talent Show and the original screen play in Rogers Park. Many thanks to Andy for helping to make this years Bolton Youth show "The Mystery of Mohican Point" such a success!
2. The Bolton Summer Day Camp passed inspection in July with no violations; however, the bathroom in the Recreation Center (Camp Rain Location) was found to be lacking a proper ventilation system and must be fixed by September 1, 2010.
3. Veteran's Park was inspected on July 29, 2010 and passed with no violations.
4. Roger's Beach has not been inspected to date. Currently the finger docks lack the required "NO Swimming" signs or markings. The signs are in, but have yet to be posted. Only two signs were ordered, however, I recommended four signs, or paint to mark each of the four docks to meet the code. (PLEASE SEE ATTACHMENT)
5. All free summer programs are available until Friday August 13, 2010. Currently, only one event was cancelled due to rain. This year swim lessons have received rave reviews from parents and children alike, and all other programs are running smoothly as well.
